Stunning custom home tucked away on a private wooded homesite with approximately 3,826 square feet, 4 bedrooms, 3 full baths, and 1 half bath. Designed with modern farmhouse charm and functional elegance, this home offers an open-concept floor plan, beautiful wide-plank flooring throughout the main living areas, and thoughtfully crafted spaces for both everyday living and entertaining. The inviting family room features a sleek linear fireplace with floating wood accents and opens seamlessly to a screened porch complete with an outdoor ceiling heater, creating a comfortable space to enjoy through multiple seasons. The adjoining deck and patio expand the outdoor living experience. The kitchen is a standout with a large center island, quartz countertops, stainless appliances, designer lighting, abundant cabinetry, and a walk-in pantry. A private office and luxurious main-floor primary suite add everyday convenience, while the spa-like primary bath includes dual vanities, an oversized walk-in shower, and a generous walk-in closet. Upstairs, additional bedrooms, bonus and recreation rooms, flex space, and an exercise room provide exceptional versatility. The front-entry garage is extra deep to easily accommodate large vehicles, storage, or hobby space. Additional upgrades include a cooled crawl space and tankless water heater. This home is a rare blend of style, comfort, and livability.
